This year Spearfish have drawn upon the experiences of our new subject matter specialists to bring you an updated and redeveloped HEAT course.

- All our UK HEAT courses will now be **First Aid Accredited** and will be taught by an active Air Ambulance Practitioner.
- Our Personal Safety & Crime Specialist is a serving Police and Close Protection Officer.

We believe the best way to teach is through facilitated and interactive learning. Our Scenarios are based on the type of real life experiences our attendees may have to deal with whilst living and working in complex environments. After the three days our attendees will gain an understanding of the following;

- Identify the Risks
- Personal Safety
- Journey Management
- Increased Confidence & Awareness

COURSE MODULES
